

ILLICIT DRUG USE

NARANGA SCHOOL POLICY

Rationale:

- Illegal drug use in schools is a social, health and legal problem that needs to be addressed in accordance with protocols established between the Department of Education and Training and the Victorian Police Force.

Aims:

- To provide a school environment that is free of illicit drugs, and safe for all staff and students.
- That **occupational health and safety guidelines** related to a safe work place are adhered to.

Implementation:

- As educators we have a legal responsibility to take reasonable measures to protect students in our care from risks of injury that we should have reasonably foreseen, including risks associated with illicit drugs.
- Our school does not accept that any student or staff member use, possess, supply or be under the influence of illicit drugs at school, at a school function or in the vicinity of the school or its students.
- Legal issues related to illicit drug use and a school's duty of care to its students are complex. The primary reference for issues relating to illicit drug use in schools is '*Drugs and Schools; Legal issues- A Guide for Principals- 3rd edition September 2009*'.
- It is incumbent upon a school to act whenever cases of drug use or illegal or criminal activity occur, or are suspected to have occurred at school. Such action must involve staff members informing the principal who may contact the police.
- Whether or not the principal informs all parents or students of incidents involving drugs at school is a matter of circumstances and degree, but the principal's legal duty is to ensure that the school environment is, as far as practicable, safe and free from risks.
- The principal will consult with school council in matters involving significant drug use.
- The school will inform students and parents via newsletters and in the Student Code of Conduct Policy that school lockers and desks are school property and may be searched without notice.
- School Council approval must be sought regarding the consumption of alcohol at school or school functions.
- Lessons relating to drug education will form part of the School curriculum.

Evaluation:

- This policy will be reviewed every three years as part of the school's review cycle.

This policy was last ratified by School Council in....
